

Asheville JCC COVID-19 Exclusion Chart

What if someone in my household...

... IS AWAITING TEST RESULTS	... HAS COVID-19 SYMPTOMS AND HAS NOT BEEN TESTED	... HAS COVID-19 SYMPTOMS AND A NEGATIVE TEST OR ALTERNATIVE DIAGNOSIS	... HAS COVID-19 SYMPTOMS AND A COVID POSITIVE TEST	... IS A CLOSE CONTACT TO A COVID POSITIVE TEST RESULT OR SYMPTOMS	... IS A CONTACT OF A CONTACT TO A COVID POS. TEST RESULT
<p>if the person awaiting test results has COVID symptoms OR is a close contact to a COVID positive test result, the person tested and all household members must be excluded from JCC facilities until test results come back. Then they must follow the guidelines to the right.</p> <p>If the person awaiting test results does not have COVID symptoms AND is not a close contact, they are not required to exclude from JCC activities while awaiting test results.</p>	<p>The person with symptoms must be excluded from JCC facilities until all three are true:</p> <ul style="list-style-type: none"> • it has been 10 days since symptoms first appeared • it has been 24 hrs since the person had a fever • symptoms have improved, including cough and shortness of breath <p>All household members must be excluded from JCC activities for 14 additional days after their last contact with COVID symptoms.</p>	<p>The person with symptoms must be excluded from JCC activities until all three are true:</p> <ul style="list-style-type: none"> • they have documentation of a negative test result OR alternative diagnosis • it has been 24 hours since the person had a fever • they have felt well for at least the past 24 hours <p>All household members must be excluded from JCC activities until they can provide documentation of the negative test result or alternative diagnosis.</p>	<p>The person with symptoms and COVID diagnosis must be excluded from JCC facilities until all three are true:</p> <ul style="list-style-type: none"> • it has been 10 days since symptoms first appeared • it has been 24 hrs since the person had a fever • symptoms have improved, including cough and shortness of breath <p>All household members must be excluded from JCC activities for 14 additional days after their last contact with COVID symptoms.</p>	<p>The person who was a close contact (as determined by the health department and/or within 6 feet for 15 minutes or more) to someone with COVID symptoms AND/OR a COVID-positive test result must be excluded from JCC facilities for 14 days since the last point of contact with that person while they were symptomatic and/or contagious. They must complete the full 14 day quarantine even if they are tested and the test comes back negative.</p>	<p>There is no required exclusion for an individual who is a contact of a contact to a COVID positive test, nor is there a required exclusion for their household members.</p>

COVID-19 exclusion symptoms are: fever of 100.4 or higher, chills, shortness of breath, difficulty breathing, new cough, new loss of taste or smell. Anyone who has been advised by a public health official to quarantine must exclude from JCC programming for the indicated number of days.
