

Shalom Children's Center

*Raising each child to form a
community of peace*

Program Handbook

2022-2023 School Year

Welcome to the JCC family!

We are delighted to have your family join us at Shalom Children's Center at the Asheville JCC! Please be sure to read this handbook thoroughly to understand our philosophy and goals, day-to-day operations, policies, and expectations for this new and exciting journey.

We approach our partnership with families through the lens of *tzelem elohim* (dignity) and the value of *kavod* (respect). We ask families to set an example for their children by adhering to all JCC policies, and modeling behaviors that demonstrate mutual respect between teachers, families, and children. We invite you to work with us in establishing open communication between JCC staff and your family. Please feel free to ask your child's teaching team to schedule time away from the classroom to discuss any questions or concerns, either in person or by phone. We invite families through ongoing, meaningful conversations to engage with our program as partners in the education and social emotional growth of our children. We value families as competent thinkers and learners and offer them opportunities to understand our educational philosophy. We support you on your parenting journey and provide opportunities to joyfully celebrate Jewish life together as a community.

It is important that you set aside time to read all written communications from our program to stay informed on your child's progress, classroom updates, school policy changes, and special programming opportunities. Communications from school come home in various forms, including e-mails, Storypark posts, notes on cubbies, and mailings. Please check for communications on a daily basis.

There may be some classroom specific instructions that are not included in this handbook. Your child's teaching team will provide you with additional information about specific classroom practices. We encourage questions, and know that it is important for us to work collaboratively to provide an impactful and joyful first early learning experience for your child.

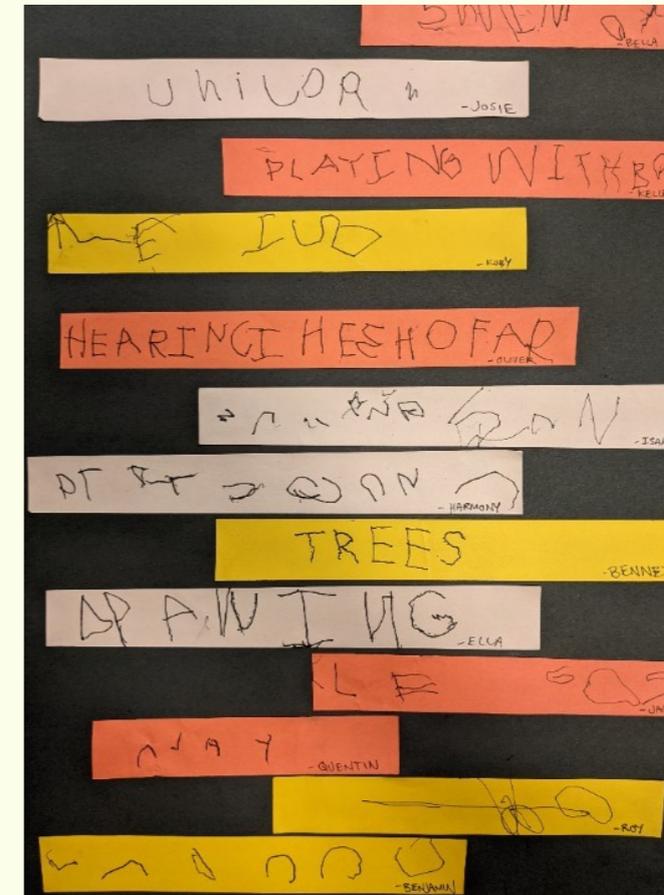

Thank you for sharing your children with us!

Overview

Shalom Children's Center Early Childhood Programs

Shalom Children's Center is a Five-Star rated NC licensed child care facility that serves approximately 140 families with children 6 weeks through 5 years of age. Our year-round program offers full-time and part-time options for enrollment.

Shalom is the Hebrew word for peace, and it is this vision of a harmonious world that we strive to build with our children. We celebrate Jewish traditions and draw from a code of ethics that teaches us to respect and care for the earth and all of its inhabitants. Children, families, and teachers are connected through this circle of care and respect, which expands to the broader world of all human life and nature. While we seek to affirm our Jewish cultural identity and enhance our exploration of Judaism together as a family, we also honor and learn from the diverse experiences and traditions of all who participate in our program.

Curriculum

As part of the JCC Association, we focus our approach through the Sheva Early Learning Framework which integrates Judaics, Constructivist learning, and community building into our daily routines and lessons. Children help to direct learning based on their own emerging developmental needs and interests. We also use the North Carolina Foundations for Early Learning and Development as a resource to inform the developmental appropriateness of our activities offered to each age group. Each classroom community is developed to create a strong educational environment where all learning domains are addressed in a holistic way.

Our Mission

The mission of Shalom Children's Center is to raise each child to form a community of peace. We serve the Jewish community and the community at large by developing positive self-awareness and self-esteem in our children, while fostering an understanding of each child's interconnectedness with the rest of the world.

Hilde's House Infant & Toddler Program

Hilde Cohen Hoffman, a former teacher at the Asheville JCC, was a woman of great compassion and humor who grew up in Leipzig, Germany. She and her father would often walk to the Leipzig Zoo where there was a breeding program for lions. One season, a mother lion gave birth to a cub that was smaller than the rest, and the mother refused to nurse it. Hilde inquired about the cub and was asked if she would like to come each day and care for it. She fed and nurtured the lion, and it grew with no problem.

Years later, Hilde Hoffman ended up in the mountains of North Carolina where she has cared for generations of children at the Asheville JCC. Hilde has now passed away, but her story, and the love she gave to so many children continues to inspire us in all of the classrooms at Shalom Children's Center. Just as Hilde Cohen Hoffman took care of her lion cub, we are loved, nurtured and cared for with respect for our unique qualities.

The environment at Hilde's house is unique, cozy, and loving. Our caring staff focuses on your child's individual needs, development, and growth as we provide a smooth transition from home to school. We seek to build a strong relationship between your family and our caregivers in order to provide optimal care for your baby.

Our highly-trained teachers work to enhance your child's developmental growth through numerous one-on-one interactions, and by focusing on their individual interests and pace.

Through active free play and teacher-directed enrichments, babies and toddlers begin to learn about the power of social interactive play and discover their emerging abilities to make connections with others.

Infant Room (weeks - 12 months)

Group size: 6 infants

Toddlers (12-24 months)

Group size: 12 toddlers

Shalom Children's Center 2-5 year olds

At Shalom Children's Center, children's physical, emotional, and cognitive abilities expand rapidly through the many engaging activities and interactions they experience:

- Daily circle time or group meeting
- Play-based learning in classroom centers
- Physical play on the outdoor learning environment and gardening in our children's educational garden
- Seasonal swimming for 3-5 year-olds
- Walks around the neighborhood and field trips

Classrooms

Levi'im (*little lions*) - older toddler/twos

Taglit (*discovery*) - 2-3 year olds

Olam Echad (*one world*) - 2-3 year olds

Reim (*friends*) - 3-4 year olds

Teva (*nature*) - 3-4 year olds

Ahava Pre-k (*love*) - 4-5 year olds

Keshet Pre-k (*rainbow*) - 4-5 year olds

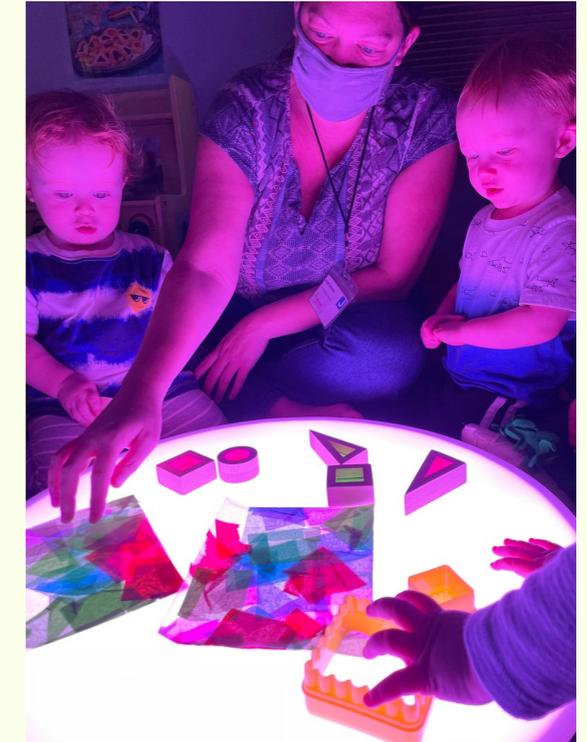

Children are placed in an age-appropriate cohort upon enrollment, and move up to the next classroom with their age group at the beginning of each new school year.

Children as Constructivist Learners

Children are natural learners. A Jewish expression of values emphasizes that teachers inspire children to question their world and appreciate multiple perspectives. Based on an image of the child as a competent and capable learner full of potential, teachers and children engage in research as a way of co-constructing knowledge. When children are agents of their own learning, they build life-long critical thinking skills and are more deeply invested in the process.

Our approach to learning consists of engaging the children in exciting explorations of developmentally appropriate ideas and concepts to encourage learning across multiple disciplines. Children offer input, raise questions, and work together to solve problems. Through discussions, experiences, and materials, the children's ideas and interests emerge into thematic play demonstrated in learning centers. This is called the "emergent inquiry" approach to learning.

We immerse the children in a literacy rich environment, using books to reinforce their ability to propose and carry out their own research, and offering numerous opportunities for written and verbal self-expression. STEAM (science, technology, engineering, art, maths) learning is interwoven into the learning environment through open-ended materials and hands-on experiences. Innovation, creativity, problem-solving and social skills are fostered where children and adults engage together in a brave space where we can all work together to create meaning and allow for the growth that comes with taking risks and making mistakes.

Environments as Inspiration for Inquiry

If our classrooms, hallways, indoor and outdoor spaces are an intentional place for children that provoke wonder, curiosity, intellectual engagement, creativity and fun, our schools will be a place that engages children in meaningful and lasting ways. Our spaces are flexible, materials are open ended and children have the freedom to interact with quality materials in their environments.

Loose Parts Play

We partner with families to provide materials that are multi-use and encourage problem-solving, creativity, innovation, imagination, and rich sensory learning. The loose parts approach uses non-traditional materials to encourage children and adults to engage together in thinking and inventing in non-traditional ways.

Outdoor Learning Environments (OLE)

We believe that substantial outdoor activity is vital to health and well-being. Your child will spend time outdoors all year round and in all weather. Warm coats, hats, and mittens are essential in winter, and raincoats and boots are helpful in rainy or wet weather. We see mud as an opportunity for exploration and scientific learning—**expect that your child will get messy!** Please help your child make clothing choices that will promote their comfort and success in their indoor and outdoor learning, and keep an extra change of clothes at school.

Ginat Ha'Yeladim

Our garden curriculum offers the children a remarkable opportunity to understand Jewish ethics that require us to be good stewards of the earth and its resources. This hands-on approach to learning in nature makes Jewish ethics come to life, showing how nature's cycles are tied to the Jewish holiday cycle and how our focus on being a mensch (a good human being) translates into living in harmony with the earth and its resources.

Families as Engaged Partners

Our B'rit

The Hebrew word “*b’rit*” means “covenant.” A covenantal relationship enables us to partner with others in pursuit of shared vision, to grow, to risk, and to communicate with honesty. Like many relationships typical of business and politics, these relationships are enacted through mutual understanding of specific rights and responsibilities. But covenantal relationships are valued in and of themselves, not just as a means to realize other ends. Our lives revolve around our inescapable relationships to our environment, our families, our friends, our colleagues and our world. Both our personal and professional lives are enriched by binding relationships in which we feel a true sense of security; relationships in which our individuality is honored, our opinions are heard, our needs are considered.

Relationships of this sort are not only nurtured between individuals. It is possible to be part of a covenantal community. Through participation in such communities, we accept certain standards of behavior; we agree to communicate honestly, treat others with respect, understand our individual needs in light of the needs of the community, work toward our shared visions, and create space in which others are able to do the same. Two common Hebrew words for community are *kahal* and *kehillah*. The first is more of a “gathering,” possibly of those who come together circumstantially for a specific purpose or short-term task. By contrast, the word *kehillah* is often used in conjunction with the adjective “*k’doshah/sacred*.”

We invite each family to join in our Shalom Children’s Center *kehillah* to recognize that our time, intentions, and efforts together to care for our children and each other is something sacred and respected. Each child, teacher, family member, specialist, support staff and administrator are valuable and contributing members of the “village” in which we raise our children.

Families as Engaged Partners: Home & School Communication

Story Gathering

Upon enrollment and prior to starting a new classroom, families participate in a collaborative meeting with the child's new teaching team called *Story Gathering*. This 30-minute session gives the teaching team a chance to learn all about your family: stories about your child, their likes and dislikes, routines, learning styles, and more. It is also a chance to share about family traditions, expectations, hopes and goals for the school year. Story Gathering is an important part of building a year-long partnership with your child's teaching team and is a requirement for all enrolled families.

Storypark

We use Storypark as a way to communicate with families. Storypark is a secure way to share photos, stories, and learning moments that happen in the classroom and make learning visible. The teaching team uses Storypark to document developmental progress, child-centered exploration, and active engagement in the cycle of inquiry. Storypark is provided at no cost to families and builds a portfolio of your child's progress during his or her entire time enrolled at Shalom Children's Center.

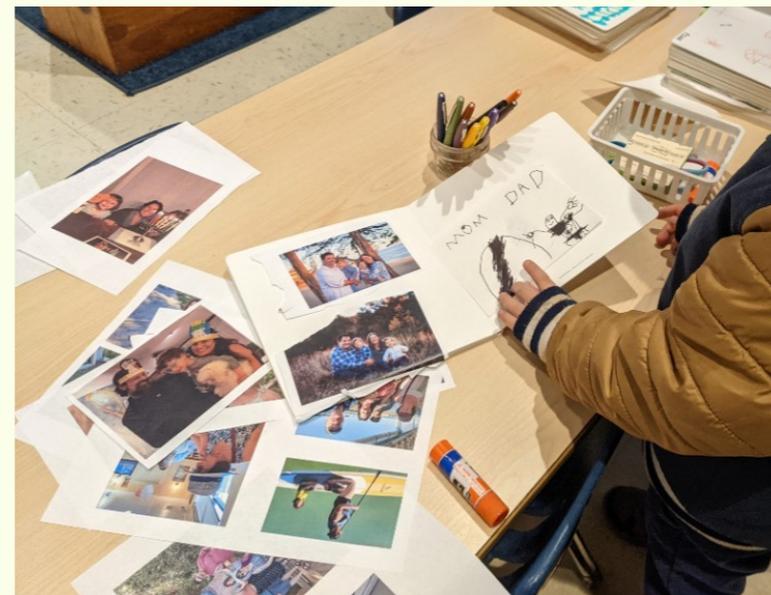

Occasionally, the director or your child's teaching team will post important announcements, event invitations and reminders, and general information on Storypark. It is important to check these posts regularly to stay up-to-date on what is happening at school.

Day-to-Day Communication

Upon enrollment, you will receive a classroom packet with information about how to contact your child's teaching team via phone, email, and Storypark. To contact your child's teaching team during the day for an urgent matter, call the JCC Front Desk (828-253-0701) and they may be able to connect you with one of the teachers or the ECE Director.

Child Conferences

Child Conferences are an opportunity for families and the teaching team to meet and discuss the growth and developmental interests of your child, provide a lens for understanding your child's work and progress, and collaborate on supporting your child's success in both the home and school setting. Conferences are offered twice per year according to the school-year calendar, and can be arranged with your child's teaching team when needed.

Jewish Early Childhood Education

At the Asheville JCC, we are committed to making Jewish learning come to life in ways that are meaningful and engaging. Our approach to seamless Jewish learning is designed to help children begin to understand that living a life enriched with shared values is not merely the celebration of Jewish holidays, but is also an everyday practice, fostering our ability to be good, honest, kind, and thoughtful people each and every day. Through developmentally appropriate and thoughtful invitations, everyday activities and interactions become opportunities to engage with our world and each other in a way that is meaningfully connected to each of our contexts, traditions, and complex identities. Throughout the year, we draw on the wisdom and ideas of Jewish thinkers, texts, histories, and stories to bring generations together in finding meaning, purpose, and gratitude.

Jewish life and learning is interwoven through our curriculum by:

- Universal and Jewish values elevated and made tangible through lessons in the Children's Garden, mindful practices for environmental responsibility and our relationship to the Earth
- Weekly Shabbat and song celebrations and holiday observances as a community
- Reflective practice and integration of the Seven Jewish Lenses into creating our vision and goals as educators

Holidays

We honor Jewish traditions by celebrating and observing the Jewish holidays of Rosh Hashanah, Yom Kippur, Sukkot, Hanukkah, Tu B'Shevat, Purim, and Passover. We welcome family members to participate in all the various events held year-round and value the connection of Jewish learning with family life. We celebrate the diversity of all of our families. At the JCC, we do not have school-wide celebrations for some holidays such as Easter, Christmas, Valentine's Day or Halloween. However, in addition to the Jewish holidays, we do celebrate Thanksgiving, Independence Day and Martin Luther King Jr.'s birthday.

School closures

In addition to some holidays, Early Childhood programs also close for teacher work days, training, and classroom set-up days throughout the year. Please refer to the most recent school year calendar in order to plan ahead for closings. These closing days are built into the annual enrollment tuition and do not affect monthly tuition payments. Our school year calendar is informed by and reflects our vision and values for our JCC community: celebration of Jewish life, families as engaged partners, professional development and growth for the educator workforce, and care for physical health & mental wellness of all.

Birthdays

We enjoy celebrating your child's birthday at school. Be sure to discuss your plans with your child's teaching team ahead of time. Please be aware of any allergies of other children in your child's classroom if bringing treats to share.

The JCCs of North America Early Learning Framework

The foundation of our work is the JCCs of North America Early Learning Framework which outlines a dynamic vision of excellence in early childhood Jewish education. It is meant to set the stage for learning, not as a prescribed curriculum.

This framework provides a focal point for dialogue among JCC professionals across North America, with the goal of developing a common language and a greater understanding of the vital importance of early care and education for young children and their families.

The Jewish lenses and core elements are meant to provoke conversation and learning that inspire deeper listening, observation and decision-making that support the construction of curriculum with young children.

These lenses articulate the approach to our work. They inspire as much as they inform. They are ideally manifested daily in each of our early childhood centers—in the ways in which we structure our time, our curricula and our classrooms; the quality of our relationships with our students, our faculties, our host institutions; and the partnerships we forge with the families in our communities. They improve and sharpen our vision, and enable us to see the world more clearly and in a particularly focused way.

Judaism is not exclusively a matter of the “what” or “when” in the world of ritual and faith, but includes the deeper matters of the “how” and “why” of the totality of our lives and our relationships to the world as a whole. It welcomes diversity, inclusion, reflection, and innovation.

7 Jewish Lenses

Masa (Journey)
Reflection, Return, and Renewal

B'rit (Covenant)
Belonging and Commitment

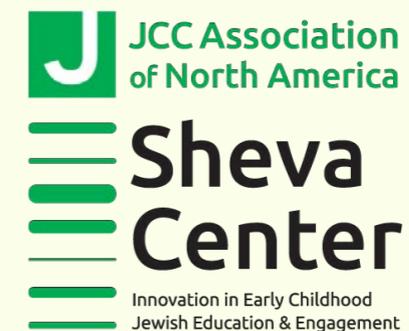

Tzelem Elohim (Divine Image)
Dignity and Potential

K'dushah (Holiness)
Intentionality and Presence

Hit'orerut (Awakening)
Amazement and Gratitude

D'rash (Interpretation)
Inquiry, Dialogue, and Transmission

Tikkun Olam (Repair of the World)
Responsibility

Sh'mirat HaGuf: Approaches to Health

At Shalom Children's Center, we prioritize ways to find balance, energy, good health and endurance in the children we serve as well as the adults who teach and care for young children. We believe the health of our school means more than just a lack of sickness; a healthy school engages the whole community in thinking about our physical, social-emotional, mental and spiritual well-being as a critical focus to our educational practice.

We employ a holistic approach to child and family health in many ways:

- Children learn to have fun while exercising and developing locomotor, non-locomotor, and manipulative skills in a series of age-appropriate, non-competitive activities.
- We collaborate with other departments for a whole-person approach to continued child and family health, including Aquatics and Wellness, school-age and teen programs, and Jewish Lifelong Learning departments.
- Teachers, children, and families are encouraged to work together to build healthy habits.
- An environment is created where physical activity, health education, and healthy eating behaviors are valued and taught.

Food & Nutrition

Parents/guardians provide a nutritious, meatless (fish allowed) lunch and two snacks for their child each day. The North Carolina Division of Child Development requires that all meals and snacks meet specific nutritional guidelines. Please help us to comply with these guidelines by providing at least three food groups plus milk for lunch, and at least two food groups for snacks. Food groups to choose from are protein, whole grains and starches, fruits and vegetables, and dairy.

Sweets may be served on a very limited basis for special occasions. If you are planning a special celebration for your child's classroom, please remember that there are lots of healthy options, and consult the food allergy list in your child's classroom.

- All foods must be sent in **sealed, non-glass containers that are labeled daily with your child's name and the date.**
- Because they do not meet temperature requirements for food to be stored at or below 45 degrees or at or above 140 degrees, Thermos containers are not in compliance with the sanitation laws of North Carolina (18A.2806 f,h,i) and therefore should not be used for your child's lunch or snacks.
- Also in accordance with NC rules, JCC staff members are not allowed to heat up or prepare children's lunches or snacks.

Kosher Rules

The Asheville JCC is a Jewish facility, and we are committed to maintaining a Kosher environment for those in our community who choose to adhere to a Kosher lifestyle. Therefore, we ask that any food brought in to the program is **vegetarian**. Please do not send your child to school with any beef, pork, shellfish, lamb or poultry. *Hilde's House does not observe Kosher rules.*

Allergies

Please send your child to school with foods that have been eaten at home without any allergic reaction. You may also be asked to avoid

sending certain items (such as peanuts) to school if another child in the class has a food allergy.

- Make sure your child's teachers know of any confirmed or suspected allergies that your child may have, and indicate the allergy on your child's enrollment paperwork. These include medication, insect sting, or food allergies as well as pertinent medical history.
- An Allergy Action Plan is required to be completed for any confirmed food allergies. You may be required to provide an epic-pen for severe allergies.

What should I pack? Mix & Match Vegetarian Meal Ideas

Lunch = pick 1 or more from EACH column Snack = pick from AT LEAST 2 columns

Grains	Protein & Dairy	Fruits & Veggies
Bread Pita Oatmeal Rice Waffle Cereal Grits Pasta Biscuit Muffin Tortilla Bagel Bun Multi-grain crackers Pizza crust Granola Couscous Pancake Cornbread Risotto English muffin Barley Matzo Whole-grain wrap	Cheese - sliced, shredded, cheese stick Hummus Eggs Cream cheese Beans - pintos, black beans, kidneys Tofu chunks Egg salad Tuna Salmon Cottage cheese Yogurt Peanut butter Nuts Quinoa Falafel Lentils Tempeh Ricotta Seitan Plant-based meat substitutes	Apple slices/applesauce Banana Grapes (cut lengthwise) Fruit cup Melon Raisins/dried fruit Berries Pineapple Pear Kiwi Mango Avocado Beets Seaweed Greens - turnip, collards, spinach, kale Cabbage Celery Carrots Zucchini/squash Sprouts Sweet potato Veggie soup Tomato Cucumber Asparagus Green beans Peas Broccoli Cauliflower Fruit & veggie smoothie

Sh'mirat HaGuf: Health & Participation

In order to prevent the spread of illness, we are very strict about our health and participation policy. Please help us keep our children healthy. Children may only attend when they are not contagious and are able to fully participate in the regular activities of the program, both indoors and outdoors.

Children should be kept home if their condition is:

- Contagious, presenting a health risk to other children and adults.
- Disruptive of our ability to tend to all of the children. Our programs are not designed to provide care for ill children, and the extra care required for unwell children can compromise the care of the group.
- Disruptive of your child's ability to participate in regular activities. If the physical or emotional needs of your child cannot be reasonably met because of discomfort or illness (despite the staff's best efforts), the child will be sent home.
- Worsened by an underlying condition that may put your child at increased risk during the school day.

Please notify us if your child will be absent because of any illness. It is important for us to know your child's condition, particularly if there is a risk that other children and staff may have been exposed to something contagious and may begin to show similar symptoms. We reserve the right to contact the health department regarding any suspected illness or health condition in order to follow their suggestions.

If your child becomes ill during the school day, you will be notified and arrangements must be made to take your child home within 15-20 minutes. We value the health of our children and families and this measure is to protect your child as well as the rest of the class from contagion.

Children MUST stay at home until all symptoms of communicable disease have subsided for 24 hours. Symptoms that must have subsided for 24 hours include but are not limited to:

- fever of 100.4 degrees or more
- vomiting
- contagious rash and/or open lesions
- eye discharge

Additional Exclusions

- **Chickenpox-** Children should remain at home for seven to ten days or until all the pox are scabbed over.
- **Strep Throat-** Children can return to school after they have been on medication for at least 24 hours and are not in the contagious phase.
- **Pink Eye-** Children must be on medication for at least 24 hours before returning to school.
- **Diarrhea-** Children can return to school when symptoms have not appeared for 12 hours.
- **Lice-** JCC staff should be notified of any confirmed or suspected cases of head lice. Any child with a confirmed diagnosis of head lice may return to school with proof of treatment after 24 hours. The child will continue to be checked for viable nits, and may be sent home for additional treatment. The school will notify families when there is a documented case.
- **COVID-19-** See current exclusions based on NCDHHS guidance

Medications

In order to give your child medications during school hours, please be aware that the state of North Carolina requires all childcare facilities to:

1. Obtain a signed consent form to administer any over-the-counter, homeopathic or natural, and prescription medications. This form must specify dosage, times, and dates to be administered. Consent forms for prescription medications must have a physician's signature on them, and we may also require a physician's signature on requests to administer over the counter medications.
2. Dispose of any unused medication and/or any medication that is left with us past the date specified on the consent form. (We cannot keep medicine without an up-to-date, signed consent.)
3. Dispense only medications that are in their original, labeled containers, with a pharmacy label if prescription medication. We cannot keep any medication that is brought in any other container.

Sunscreen, hand sanitizer, hand lotion, diaper rash ointment, bug spray, and lip balm are considered to be medications by the North Carolina Division of Child Development. We must obtain a separate permission form, signed by the parent/guardian, in order to use these items on your child. This form is in effect for one year from the date it is signed. These items must be stored in a locked cabinet in your child's classroom. If these items are found in the child's cubby, the teacher will label and lock the item.

Medical Action Plans

Medical Action Plans are required for children with any medical conditions that require emergency rescue medication (such as an Epi-Pen, inhaler, or seizure medication). Medical Action Plans must be signed by a physician and are required to be complete and on file on the first day of the child's attendance, and updated at least every 6 months or if there are pertinent changes to the child's medical status.

If the child requires emergency medication for allergies, seizures, or asthma, it is the responsibility of the parent/guardian to provide the medication to be kept on-site.

Immunization Policy

North Carolina General Statute 130A-152(a) requires immunizations for every child in this state. All children entering Shalom Children's Center must have an immunization record on file prior to admission. We will accept the Child in Care Medical Statement signed and dated by the physician or a copy from the physician's office.

The immunization record must include:

- Name of child
- Name of parent/guardian
- Child's birth date
- Vaccine administration dates
- Date of issue
- Name and address of physician
- If applicable - physician-verified history of disease, laboratory evidence of immunity or medical exemption.

Parent/guardians are required to provide updated immunization records each time their child receives a vaccination. Parent/guardians of children with missing or overdue vaccinations have 14 business days to submit an updated copy of their child's immunization record. Failure to comply within 14 business days will result in the child being excluded from participation in children's programming until the child is caught up. **We do not accept religious exemptions.**

Medical Exemption

- If a licensed physician certifies in writing that the child has a health condition which is a valid contraindication to receiving a vaccine, then a permanent or temporary exemption may be granted. This statement must specify those immunizations which may be detrimental and the length of time.
- In the event of an outbreak, medically exempt children will be excluded from care to avoid potential complications of the disease. The length of exclusion will depend upon the incubation period of the particular disease. The Department of Health will be consulted if an outbreak does occur.

Purpose

- The Buncombe County Health Center, the American Academy of Pediatrics, the American Academy of Family Physicians, and the Centers for Disease Control and Prevention all strongly recommend that the vaccines be given according to recommendations. Vaccines are less effective when large numbers of parents opt out. The more who opt out, the less protected all children become.
- North Carolina Immunization Law (G.S. 130A-155 (c)) requires all licensed child care facilities to submit an annual immunization report. The purpose of this report is to ensure that all children enrolled in the program are protected against vaccine preventable diseases and to determine the number of children who meet state immunization requirements.
- The Shalom Children's Center will maintain a current and complete list of children who are susceptible to vaccine preventable disease(s) so they may be rapidly identified in the event of an outbreak.

Child Behavior & Development

Responding to Child Needs and Behavior: A Whole-Child Approach

At Shalom Children's Center, we strive to create a nurturing environment where children learn about the world through exploration, risk-taking, and trial and error. In a group setting, teachers guide children through a meaningful flow of the day that is responsive to the needs of the individual as well as the group as a whole.

Foundational to our approach to child behavior and development is the core understanding that *behaviors communicate needs*. We observe and respond to how each child perceives and processes their world according to their sensory, physical, cognitive, social, and emotional needs; uses their unique assets, gifts, and limitations; interacts creatively within the classroom/family; and co-regulates and responds to caring adults.

In order to guide the children towards prosocial classroom participation, we use positive reinforcement, scaffolded guidance, and positive presence and affirmation. Corporal or aversive punishment, isolation, and harsh tones are never used.

Each teaching team and classroom of children collaborate to co-construct expectations and agreements for respectful and meaningful engagement within our school community. This manifests in diverse ways with each age group and classroom by:

- Maintaining clear and developmentally appropriate expectations for behavior
- Teaching conflict resolution skills and actively seeking peaceful solutions
- Teaching awareness of self, others, and coping skills
- Preserving space and time for each child's individual process
- Leading with values of *kavod*, *kehillah*, *tzelem elohim*, *brit*, and *tikkun olam*

Responding to Individual Child Needs

We understand that behaviors arise from a need or root cause. Together as a team we work to create an understanding of each child's process. As experienced educators, we notice that when a child is in a period of *reorganization*, behaviors that may appear as *regression* may occur.

We recognize child development can be a non-linear, unpredictable journey. If we begin to notice subtle or significant changes in your child's behavior, moods, or needs, we use the following tools to document and collaborate with the teaching team:

- Collaborative observation and gathering of data
- Asking questions to gain understanding
- Open communication with the team and family through phone calls, email, Storypark, or a conference

Some children experience difficulty working within our day-to-day classroom framework. In order to ensure each child's success, families, teaching teams, and support specialists must work together as a unified support team to develop specific and consistent strategies for school and at home. The team helps translate observations and data through the lenses of:

- Developmentally appropriate teaching practices and the continuum of child growth
- Child autonomy, competency, and relationships
- Safety and security
- Shalom Children's Center philosophy and shared values
- Collaborative and constructivist learning
- Classroom, teachers, and peer dynamics

Early identification and intervention is often successful in helping children, families, and teachers to proactively meet learning, social, communication and self-regulation challenges. We seek to build an inclusive learning setting, which means some children can benefit from a focused specialized approach to help them learn to relate to themselves, others, and the environment. We work closely with specialists and invite them to collaborate to meet the child's needs and help children experience success. These may include:

- Observation and team support from the Learning Community Support Specialist
- Outside assistance, evaluation and/or support in the classroom
- Assessment through the Sunshine Project
- Referral to and evaluation by a Speech Therapist, Occupational Therapist, Physical Therapist, Mental Health Services, or Asheville City/Buncombe County Schools Preschool Exceptional Children's Team

Concerning behavior that harms or disrupts the safe learning of others will be immediately addressed.

If the team requires more support in understanding and supporting the child within the context of their developmental continuum, we may require the family to explore the following supports:

- The child may be moved to a different classroom
- The family may be asked to provide a one-on-one aide for the child during school hours
- Participation in specialized services
- An alternate enrollment schedule or child care arrangement

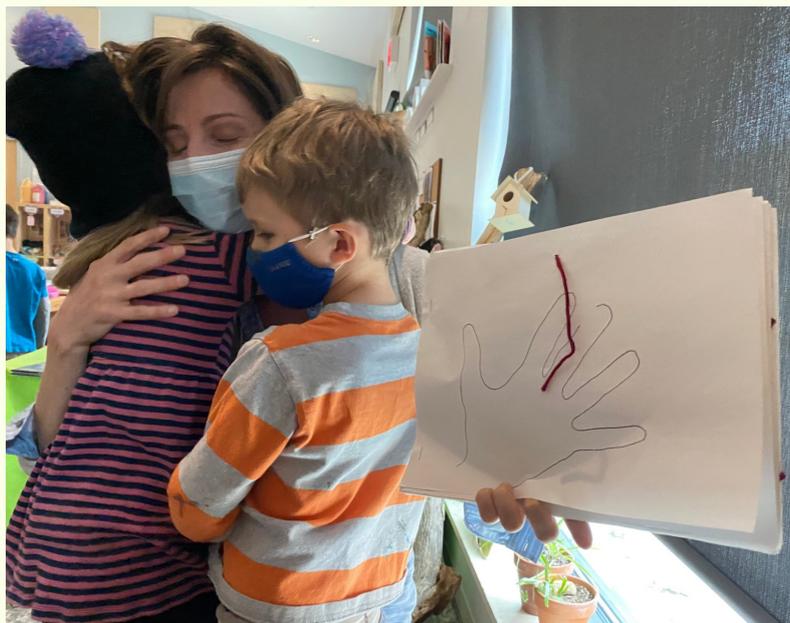

Values Statement on Gun Play

We believe... that all children deserve to feel physically and emotionally safe at all times during school and during play. Shalom Children's Center is a place of peace.

The problem is... when children engage in gun play, they may make intimidating gestures, postures and sounds that can create an unequal power dynamic and can provoke feelings of fear. This may result in aggressive play patterns and then interruption of healthy social, emotional and cognitive development.

We need... young children to feel empowered by supportive caregivers and environments in their daily lives, so they are able to explore and exercise feelings of power and control in healthy ways that do not compromise the physical or emotional safety of others. We need young children to understand power in relationships and what it means to be "powerful".

Together, we can... promote peacemaking at Shalom Children's Center by raising children who are strong in character and self-esteem, and who are praised, rewarded, and admired for demonstrating empathetic, pro-social behaviors. We can do this by involving children in our decision-making process of what kinds of play are acceptable, reflecting on how our choices and actions influence other people, and by being positive role models in healthy self-expression and respect for the integrity of others.

Migvan Inclusion Statement

We welcome you.

The Asheville JCC is committed to creating inclusive spaces. All are welcome to be part of our community and to participate in JCC programs and events regardless of religion, belief system, race, national or ethnic origin, appearance, language spoken, gender identity, sexual orientation, age, marital status, or disability. We strive to foster inclusion, compassion, dialogue and understanding among all people with a goal of ending bias and discrimination in any form.

You belong here.

Created by the 2018 Migvan Task Force to promote diversity and inclusion in all JCC programs

JCC Safety & Security

Arrival & Departure

Please have your child arrive at school no later than 9:00 a.m. Please let your child's teacher know when your child will be arriving late because of a scheduled appointment. Please call the front desk 828-253-0701 or e-mail the teaching team if your child will be out for any reason.

When you pick up your child, gather their belongings from the cubby, and sign out on the attendance sheet. Make direct contact with the teacher.

- If your child is not in their regular classroom, check the whiteboard outside the classrooms for directions. Your child may be on a shared outdoor space or another classroom.
- If any person other than a parent/guardian will be picking up your child, their names must be listed on the Safe Arrival & Departure sheet upon enrollment. It is the responsibility of the parent/guardian to communicate any changes to this list, and changes must be submitted in writing prior to the scheduled pick-up.
- Please let your child's teaching team know if there is a change from the normal pick-up time or routine.
- **If a teacher does not recognize the person picking up your child, a photo ID is required.**
- Children must be escorted to and from the classroom with supervision maintained at all times.
- All authorized persons will be issued a key fob and must have it with them for entry to the appropriate drop-off and/or pick-up location. There is a \$5 deposit per key fob. Please report lost key fobs immediately to the Front Desk.

Parking

Park in legally designated parking spots only. Vehicles parked in the fire lane or illegally parked on the street are subject to be towed. The JCC is not responsible for items lost or stolen from your vehicle while on JCC campus or surrounding property. Exercise caution and lock your doors, and do not leave valuables unattended. **DO NOT LEAVE CHILDREN UNATTENDED IN YOUR VEHICLE AT ANY TIME.**

Building Security

- Please be sure to enter and exit the JCC main building through the front entrance at all times. To keep our entrance secure, enrolled families must use their assigned key fob to gain entry to the building. Do not hold the door open for people you do not recognize. Do not share key fobs with unauthorized persons. Report lost or misplaced key fobs immediately to the Front Desk.
- All visitors will be screened at the entrance to the building and must sign in and present photo ID. Visitors will only be allowed entry to children's programs if they are on the authorized departure list or have pre-arranged a visit. Walk-in tours of the early childhood spaces are not accepted at this time.
- In an effort to ensure the safety of all children, the Asheville JCC staff reserves the right to check and hold any bag or personal item that is brought into any of our program facilities.
- For your security, the JCC premises, including parking lot, indoor and outdoor play spaces, entrances, and exit-only doors are under 24/7 video surveillance. **If you notice any suspicious behavior or items on JCC property or surrounding area, please contact the Front Desk or dial 911 immediately.**

Child Welfare Policies

Child Abuse Policy

According to North Carolina State Law, all licensed child care providers are mandated to report any case of suspected child abuse or neglect to Child Protective Services. All staff members are trained in the identification, reporting and prevention of child abuse and neglect.

Shaken Baby Syndrome and Abusive Head Trauma

Children are observed for signs of abusive head trauma including irritability and/or high pitched crying, difficulty staying awake, lethargy or loss of consciousness, difficulty breathing, inability to lift the head, seizures, lack of appetite, vomiting, bruises, poor feeding/sucking, no smiling or vocalization, inability of the eyes to track and/or decreased muscle tone. Bruises may be found on the upper arms, rib cage, or head resulting from gripping or from hitting the head.

Behaviors that are prohibited include (but are not limited to): shaking or jerking a child, tossing a child into the air or into a crib, chair, or car seat, pushing a child into walls, doors, or furniture.

If SBS/ABT is suspected, staff will:

- Inform the Early Childhood Director
- Call the parent/guardian
- If the child has stopped breathing, trained staff will call 911 and begin pediatric CPR.

Reporting

Instances of suspected child maltreatment in child care are reported to Division of Child Development and Early Education (DCDEE). Instances of suspected child maltreatment in the home are reported to the county Department of Social Services.

Prevention

Staff are trained in safe ways to care for children ages birth through five, de-escalate behaviors, and support an environment of safety and respect for the child. All staff are required by licensing to complete a two-hour Recognizing and Responding to Suspicions of Child Maltreatment NC course upon employment and renew every five years.

Safe Sleep Policy

Sudden Infant Death Syndrome (SIDS) is the unexpected death of a seemingly healthy infant for whom no cause of death can be determined. Child care providers can maintain safer sleep environments for babies that help lower the chances of SIDS. NC law requires that child care providers caring for children 12 months and younger, implement a safe sleep policy, share this information with families, and participate in training.

In the belief that proactive steps can be taken to lower the risks of SIDS in child care and that families and child care providers can work together to keep babies safer while they sleep, the JCC will practice the following safe sleep practices:

Safe Sleep Practices

1. All child care staff working in this room, or child care staff who may potentially work in this room, will receive training on our infant Safe Sleep Policy.
2. Infants will always be placed on their backs to sleep, unless there is a signed sleep position waiver on file. In that case, a waiver notice will be posted at the infant's crib, cot, or mat, and the waiver filed in the infant's file.
3. The American Academy of Pediatrics recommends that babies are placed on their back to sleep, but when babies can easily turn over from the back to the stomach, they can be allowed to adopt whatever position they prefer for sleep.
4. We will follow this recommendation by the American Academy of Pediatrics. *We will post a notice at the baby's crib, cot or mat if we have witnessed the baby turning over.*
5. **Visually checking sleeping infants.** Sleeping infants will be checked daily, every 15-20 minutes, by assigned staff. The sleep information will be recorded on a Sleep Chart. The Sleep Chart will be kept on file for one month after the reporting month. We will be especially alert to monitoring a sleeping infant during the first weeks the infant is in child care.
We will check to see if the infant's skin color is normal, watch the rise and fall of the chest to observe breathing and look to see if the infant is sleeping soundly. We will check the infant for signs of overheating including flushed skin color, body temperature by touch and restlessness.
6. Steps will be taken to keep babies from getting too warm or overheating by regulating the room temperature, avoiding excess bedding and not over-dressing or over-wrapping the baby.

Safe Sleep Environment

7. Room temperature will be kept between 68-75°F and a thermometer kept in the infant room.
8. We will not allow blankets in a crib wherever a baby under 12 months is sleeping. We may allow the use of blankets on a crib mattress on the floor for older infants. We may allow the use of a sleep sack. At no time will the sleeping child's face be covered.
9. A pacifier may be allowed in infants' cribs, mats or cots while they sleep.
10. A safety-approved crib with a firm mattress and tight fitting sheet, cot, or mat will be used. We may also allow a firm mattress and tight fitting sheet to be used on the floor.
11. Only one infant will be in a crib, cot, or mat at a time, unless we are evacuating infants in an emergency.
12. No smoking is permitted in the infant room or on the premises.
13. All parents/guardians of infants cared for in the infant room will receive a written copy of our Infant/Toddler Safe Sleep Policy before enrollment and any revisions.
14. To promote healthy development, awake infants will be given supervised "tummy time" for exercise and for play.
15. The center shall post a copy of its safe sleep policy or a poster about infant safe sleep practices in a prominent place in the infant room.

Swimming Pool Safety

The 3-5 year old classrooms participate in swimming at our Aquatics Facility. The following classes participate in swimming: Ahava, Keshet, Teva, Reim, and Olam Echad.

All swimming areas used by children at the JCC meet the “Rules Governing Public Swimming Pools” in accordance with 15A NCAC 18A. 2500. Our pool is regularly inspected by the health department to ensure compliance.

To prevent drowning or injury, safety measures are in place including:

- A physical barrier in the swimming pool to prevent younger children from crossing over to the deep end of the swimming pool by accident
- Children are required to pass a “deep end test” prior to being allowed access to the diving board
- The storage of the pool chemicals is in a locked secure area
- For every 25 children participating in aquatic activities, there is at least one certified lifeguard that is not counted in the staff-child ratio.
- Children under the age of three may not participate in aquatic activities unless it is necessary to implement the child’s Individualized Family Service Plan.

Supervision

Children are supervised by JCC staff at all times while participating in aquatic activities. The following staff-child ratio is maintained during aquatic activities:

- Ages 3-4 - Ratio is 1:8
- Ages 4-5 - Ratio is 1:10
- Ages 5 and up - Ratio is 1:13

Regardless of the number of children participating, a minimum of two staff members must supervise aquatic activities. Half the staff needed to meet staff-child ratios must be in the water and other half must be out of the water. If an uneven number of staff is needed to meet the required staff-child ratio, the majority shall be in the water. Staff must be positioned in pre-assigned areas that will allow them at all times to hear, see, and respond quickly to the children. When taking a child for toileting, an extra staff member will be called upon to assist.

Exclusion from swimming

Children or staff who have a contagious disease or open wound are prohibited from using the pool. Children who exhibit dangerous behavior in or around the pool, such as pushing other children, rough play, holding each other under water or running at poolside will be asked to leave the pool and go in an area that is easily supervised by the staff. If dangerous behaviors persist, a family meeting will be called. A plan will be formed with input from the parent/guardian to help the child understand the safety rules around the swimming pool. If none of these methods mentioned above work, for the safety of all children, the child will be excluded from swimming activities.

Other JCC Policies

JCC Outside Employment Policy

The JCC recognizes that families participating in JCC programs may choose to engage in social or employment relationships with JCC staff members outside of official or approved JCC business or activities. Although the JCC does not prohibit participating families or staff members from entering into private social or employment relationships, it similarly does not condone, support, or endorse these private relationships or the suitability of JCC staff members to enter into these private relationships. The JCC will not provide staff names, contact information, or recommendations to JCC families desiring to identify candidates for private social or employment relationships. The JCC wants you to know that if you elect to hire any of our staff for any purpose, that you do so at your own risk and you should take whatever precautions you deem necessary and appropriate to protect your children, including conducting your own due diligence.

Inclement Weather Closings and Delays

In the case of inclement weather, we will try to make closure or delay decisions by 6 a.m. We also try to post closing information on WLOS-TV, however, when a delayed opening is changed to a closing, our website will have the most updated information. We will also send a group text message and StoryPark post, so please make sure that we have your current cell phone and email on file and are checking for communications regularly.

If weather conditions worsen during the day, we may close early to allow families and staff to travel home safely. You may be notified via Storypark, e-mail, or phone call and will be required to pick up your child prior to the adjusted closing time.

In the event of an emergency situation that requires an unplanned closure or evacuation, staff will follow JCC Emergency Procedures and parent/guardians will be notified accordingly. Please make sure you keep your contact information updated in your child's file.

Grounds for Dismissal

The following may result in immediate dismissal from participation in early childhood programming at the Asheville JCC:

- Activity or actions that pose a perceived threat to the safety or well-being of any program participants or members of the JCC community including children, families, and staff;
- Failure to comply with safety policies and protocols as outlined in the Program Handbook;
- Failure to make payments for tuition, registration, and other fees as outlined in the Tuition & Billing Policy section;
- Participation in illegal activity while on JCC property

Non-Smoking Policy

All buildings on the JCC campus are smoke-free. Do not smoke on JCC property or near program entrances.

Tuition & Attendance Policy

Annual Enrollment

Children are enrolled for a **12-month program period**, with the school year beginning in mid-August. New classroom rates will start on September 1st of each new school year. All children participating in early childhood programming will be billed a **\$50 membership fee** annually upon the original enrollment date. A **registration fee of \$100** is due upon enrollment. This fee will be billed annually upon the start of each new school year.

Families who decide to take off during the summer months must notify the JCC by the re-enrollment deadline and must pay a retainer fee of 25% of summer tuition in order to hold their child's space in the program for the new school year. If these conditions are not met, the JCC cannot guarantee that space will be available in August. Children who elect to graduate from Shalom Pre-K in June must notify the Director as a schedule change. All schedule change requests must be made in writing to the Early Childhood Education Director by the 15th of the month and will go into effect on the 1st of the following month. Only one schedule change is permitted each year. Each change thereafter will incur a \$100 fee.

Making Tuition Payments

Annual tuition is broken into 12 interest-free monthly payments. Tuition is pre-billed and payment is due by the 1st of each month. Fees will be charged based on a 12-month enrollment schedule, rather than actual attendance. **Tuition will not be reimbursed or discounted for any absence. Tuition will not be credited or discounted in the event of an emergency or weather-related closure of the JCC or any change or alteration to program operating hours.**

In the event of an organization-wide closure, Emergency Tuition Arrangements may be available during the time that the school is closed and regular programming is interrupted, as determined by the Finance office and Executive director. **Tuition is not prorated on a daily or weekly basis.** When enrollment, withdrawal, or schedule change occurs during the month, we will bill tuition for the 1/2 or full month based on date of change.

- A 2% discount will be applied when 6 months of tuition is paid in advance.
- Each membership unit must have a valid credit card on file. Any outstanding balances past 45 days will be charged to your credit card.
- Accounts that are delinquent 90 days will forfeit participation in programs unless a payment plan has been approved and implemented with the Finance office.

Additional Fees

Registration Fee: \$100 per enrollment

Annual Membership Fee: \$50 per child

- If payment is not received by the 15th of the month, a late fee of 5% will be charged.
- A \$40 fee is assessed on all returned checks.
- Enrollments receiving child care subsidy tuition assistance will be billed the differential at a variable rate.
- If a family fails to give 2-weeks advance notice of withdrawal, a penalty of 2-weeks tuition will be charged.

For children enrolled part-time (MWF, TTH, or half-days), the JCC does not offer drop-in care for children on days/times outside their normal schedule. However, in the event of an emergency, we may be able to accommodate your child in our program. The Director must be notified in writing, and unscheduled attendance will be charged the following rates:

- \$60 for a child enrolled in MWF or TTH care to attend on a day that they are not scheduled to attend
- \$45 for a child enrolled in half-days to extend to a full day. This fee will apply to any day that a child enrolled in the half-day schedule is picked up after 1:30pm.

For those on a part-time (7:45-1:00) schedule, the half-day rate will be applied on any day that a child is picked up after 1:30pm. For children enrolled in full days, parents who pick up their children late will be billed and invoiced at a rate of \$1 per minute with a \$5 minimum.

Shalom Children's Center Rates 2022-2023 School Year

Annual Registration/Materials Fee: \$100

Annual JCC Membership Fee: \$50

Full-Day Program Rates

	Annual Tuition	Monthly payment	3 month pre-payment with discount (2%)	6 month pre-payment with discount (5%)
Hilde's House Infants	\$15,000	\$1,250	\$3,675	\$7,125
Hilde's House Toddlers Shalom Toddlers (Leviim)	\$14,700	\$1,225	\$3,602	\$6,982

Space and Equipment

There are space requirements for indoor and outdoor environments that must be measured prior to licensure. Outdoor play space must be fenced. Indoor equipment must be clean, safe, well maintained, and developmentally appropriate. Indoor and outdoor equipment and furnishings must be child size, sturdy, and free of hazards that could injure children.

Licensed centers must also meet requirements in the following areas.

Staff Requirements

The administrator of a child care center must be at least 21 and have at least a North Carolina Early Childhood Administration Credential or its equivalent. Lead teachers in a child care center must be at least 18 and have at least a North Carolina Early Childhood Credential or its equivalent. If administrators and lead teachers do not meet this requirement, they must begin credential coursework within six months of being hired. Staff younger than 18 years of age must work under the direct supervision of staff 21 years of age or older. All staff must complete a minimum number of training hours, including ITS-SIDS training for any caregiver that works with infants 12 months of age or younger. All staff who work directly with children must have CPR and First Aid training, and at least one person who completed the training must be present at all times when children are in care. One staff must complete the Emergency Preparedness and Response (EPR) in Child Care training and create the EPR plan. All staff must also undergo a criminal background check initially, and every three years thereafter.

Staff/Child Ratios

Ratios are the number of staff required to supervise a certain number of children. Group size is the maximum number of children in one group. The minimum staff/child ratios and group sizes for single-age groups of children in centers are shown below and must be posted in each classroom. The staff/child ratios for multi-age groupings are outlined in the child care rules and require prior approval.

Age	Teacher: Child Ratio	Max Group Size
0-12 months	1:5	10
12-24 months	1:6	12
2 to 3 years old	1:10	20
3 to 4 years old	1:15	25
4 to 5 years old	1:20	25
5 years and older	1:25	25

Additional Staff/Child Ratio Information:

Centers located in a residence that are licensed for six to twelve children may keep up to three additional school-age children, depending on the ages of the other children in care. When the group has children of different ages, staff-child ratios and group size must be met for the youngest child in the group.

Reviewing Facility Information

From the Division's Child care Facility Search Site, the facility and visit documentation can be viewed. A public file is maintained in the Division's main office in Raleigh for every licensed center or family child care home. These files can be viewed during business hours (8 a.m. -5 p.m.) by contacting the Division at 919-814-6300 or 1-800-859-0829 or requested via the Division's web site at www.ncchildcare.ncdhhs.gov.

How to Report a Problem

North Carolina law requires staff from the Division of Child Development and Early Education to investigate a licensed family child care home or child care center when there has been a complaint. Child care providers who violate the law or rules may be issued an administrative action, fined and/or may have their licenses suspended or revoked.

Administrative actions must be posted in the facility. If you believe that a child care provider fails to meet the requirements described in this pamphlet, or if you have questions, please call the Division of Child Development and Early Education at 919-814-6300 or 1-800-859-0829.

NC DEPARTMENT OF
HEALTH AND HUMAN SERVICES
Division of Child Development and Early Education

Summary of the North Carolina Child Care Law and Rules (Center and FCCH)

Division of Child Development
and Early Education

North Carolina Department of
Health and Human Services
333 Six Forks Road
Raleigh, NC 27609

Child Care Commission
<https://ncchildcare.ncdhhs.gov/Home/Child-Care-Commission>

Revised January 2021

The North Carolina Department of Health and Human Services does not discriminate on the basis of race, color, national origin, sex, religion, age or disability in employment or provision of services.

What Is Child Care?

The law defines child care as:

- three or more children under 13 years of age
- receiving care from a non-relative
- on a regular basis - at least once a week
- for more than four hours per day but less than 24 hours.

The North Carolina Department of Health and Human Services is responsible for regulating child care. This is done through the Division of Child Development and Early Education. The purpose of regulation is to protect the health, safety, and well-being of children while they are away from their parents. The law defining child care is in the North Carolina General Statutes, Article 7, Chapter 110.

The North Carolina Child Care Commission is responsible for adopting rules to carry out the law. Some counties and cities in North Carolina also have local zoning requirements for child care programs.

Family Child Care Homes

A family child care home is licensed to care for five or fewer preschool age children, including their own preschool children, and can include three additional school-age children. The provider's own school-age children are not counted. Family child care home operators must be 21 years old and have a high school education or its equivalent. Family child care homes will be visited at least annually to make sure they are following the law and to receive technical assistance from child care consultants. Licenses are issued to family child care home providers who meet the following requirements:

Child Care Centers

Licensure as a center is required when six or more preschool children are cared for in a residence or when three or more children are in care in a building other than a residence. Religious-sponsored programs are exempt from some of the regulations described below if they choose to meet the standards of the Notice of Compliance rather than the Star Rated License. Recreational programs that operate for less than four consecutive months, such as summer camps, are exempt from licensing. Child care centers may voluntarily meet higher standards and receive a license with a higher rating. Centers will be visited at least annually to make sure they are following the law and to receive technical assistance from child care consultants.

Parental Rights

- Parents have the right to enter a family child care home or center at any time while their child is present.
- Parents have the right to see the license displayed in a prominent place.
- Parents have the right to know how their child will be disciplined.

The laws and rules are developed to establish minimum requirements. Most parents would like more than minimum care. Local Child Care Resource and Referral agencies can provide help in choosing quality care. Check the telephone

directory or talk with a child care provider to see if there is a Child Care Resource and Referral agency in your community. For more information, visit the Resources page located on the Child Care website at: <https://ncchildcare.ncdhhs.gov/>. For more information on the law and rules, contact the Division of Child Development and Early Education at 919 814-6300 or 1-800- 859-0829 (In State Only), or visit our homepage at: <https://ncchildcare.ncdhhs.gov/>.

Child Abuse, Neglect, or Maltreatment

Every citizen has a responsibility to report suspected child abuse, neglect or maltreatment. This occurs when a parent or caregiver injures or allows another to injure a child physically or emotionally. It may also occur when a parent or caregiver puts a child at risk of serious injury or allows another to put a child at risk of serious injury. It also occurs when a child does not receive proper care, supervision, appropriate discipline, or when a child is abandoned. **North Carolina law requires any person who suspects child maltreatment at a child care facility to report the situation to the Intake Unit at Division of Child Development and Early Education** at 919-814-6300 or 1-800-859-0829. Reports can be made anonymously. A person cannot be held liable for a report made in good faith. The operator of the program must notify parents of children currently enrolled in writing of the substantiation of any maltreatment complaint or the issuance of any administrative action against the child care facility. **North Carolina law requires any person who suspects child abuse or neglect in a family to report the case to the county department of social services.**

Transportation

Child care centers or family child care homes providing transportation for children must meet all motor vehicle laws, including inspection, insurance, license, and restraint requirements. Children may never be left alone in a vehicle and child-staff ratios must be maintained.

Record Requirements

Centers and homes must keep accurate records such as children's, staff, and program. A record of monthly fire drills and quarterly shelter-in-place or lockdown drills practiced must also be maintained. A safe sleep policy must be developed and shared with parents if children younger than 12 months are in care. Prevention of shaken baby syndrome and abusive head trauma policy must be developed and shared with parents of children up to five years of age.

Discipline and Behavior Management

Each program must have a written policy on discipline, must discuss it with parents, and must give parents a copy when the child is enrolled. Changes in the discipline policy must be shared with parents in writing before going into effect. Corporal punishment (spanking, slapping, or other physical discipline) is prohibited in all centers and family child care homes. Religious-sponsored programs which notify the Division of Child Development and Early Education that corporal punishment is part of their religious training are exempt from that part of the law.

Training Requirements

Center and family child care home staff must have current CPR and First Aid certification, ITS-SIDS training (if caring for infants, 0 to 12 months), prior to caring for children and every three years thereafter. Emergency Preparedness and Response (EPR) in Child Care training is required and each facility must create an EPR plan. Center and home staff must also complete a minimum number of health and safety training as well as annual ongoing training hours.

Curriculum and Activities

Four- and five-star programs must use an approved curriculum in classrooms serving four-year-olds. Other programs may choose to use an approved curriculum to get a quality point for the star-rated license. Activity plans and schedule must be available to parents and must show a balance of active and quiet, and indoor and outdoor activities. A written activity plan that includes activities intended to stimulate the development domains, in accordance with North Carolina Foundations for Early Learning and Development. Rooms must be arranged to encourage children to explore, use materials on their own and have choices.

Health and Safety

Children must be immunized on schedule. Each licensed family child care home and center must ensure the health and safety of children by sanitizing areas and equipment used by children. For Centers and FCCHs, meals and snacks must be nutritious and meet the Meal Patterns for Children in Child Care. Food must be offered at least once every four hours. Local health, building, and fire inspectors visit licensed centers to make sure standards are met. All children must be allowed to play outdoors each day (weather permitting) for at least an hour a day for preschool children and at least thirty minutes a day for children under two. Children must have space and time provided for rest.

Two through Five Star Rated License

Centers and family child care homes that are meeting the minimum licensing requirements will receive a one-star license. Programs that choose to voluntarily meet higher standards can apply for a two through five-star license. The number of stars a program earns is based upon the education levels their staff meet and the program standards met by the program, and one quality point option.

Criminal Background Checks

Criminal background qualification is a **pre-service requirement**. All staff must undergo a criminal background check initially, and every three years thereafter. This requirement includes household members who are over the age of 15 in family child care homes.
